

2025 EDITION

AHA HOSPITAL STATISTICS™

A COMPREHENSIVE REFERENCE FOR ANALYSIS AND COMPARISON OF HOSPITAL TRENDS

Fast Facts on U.S. Hospitals, 2025

The American Hospital Association conducts an annual survey of hospitals in the United States. The data below, from the 2023 AHA Annual Survey, are a sample of what you will find in *AHA Hospital Statistics*, 2025 edition. The definitive source for aggregate hospital data and trend analysis, *AHA Hospital Statistics* includes current and historical data on utilization, personnel, indicators, and much more. The AHA has also created [Fast Facts Infographics](#) to provide visualizations for this data.

AHA Hospital Statistics is published annually by Health Forum, an affiliate of the American Hospital Association. To order copies of *AHA Hospital Statistics*, call (800) AHA-2626 or visit the [AHA online store](#). A complimentary [view-only online version](#) is also available.

Total Staffed Beds in All U.S. Hospitals	913,136
Staffed Beds in Community ¹ Hospitals	781,148
Total Admissions in All U.S. Hospitals	34,426,650
Admissions in Community ¹ Hospitals	32,345,846
Number of Rural Community Hospitals	1,796
Number of Urban Community Hospitals	3,316
Number of Community Hospitals in a System³	3,525

1. **Community hospitals** are defined as all nonfederal, short-term general, and other special hospitals. Other special hospitals include obstetrics and gynecology; eye, ear, nose, and throat; long term acute-care; rehabilitation; orthopedic; and other individually described specialty services. Community hospitals include academic medical centers or other teaching hospitals if they are nonfederal short-term hospitals. Excluded are hospitals not accessible by the general public, such as prison hospitals or college infirmaries.
2. **Other hospitals** include nonfederal long term care hospitals and hospital units within an institution such as a prison hospital or school infirmary. Long term care hospitals may be defined by different methods; here they include other hospitals with an average length of stay of 30 or more days.
3. **System** is defined by AHA as either a multihospital or a diversified single hospital system. A multihospital system is two or more hospitals owned, leased, sponsored, or contract managed by a central organization. Single, freestanding hospitals may be categorized as a system by bringing into membership three or more, and at least 25 percent, of their owned or leased non-hospital pre-acute or post-acute health care organizations.
